Good Morning All:

Hope you are all well. The lesson for today and Monday are basically the same. By the end of the day on Monday, I would like a submission by electronic form of a question #3. To be precise, it is the question #3 from test #6. I have attached a copy to this email for your convenience. I am looking for a well written answer that you can be proud of. Please note that detail is expected and PLEASE USE POINT FORM.

You can likely find answers to similar questions on the other 6 tests. Not all of those answers would qualify for full marks (out of 16 - 4 per question).

You will need to submit by some electronic form. The Bognor post office is not ready for a deluge of mail! The best electronic form is .pdf, but only if you can get a good quality output. A good picture will also work.

We are not going to cover the remainder of this unit through on-line learning. I would however suggest that you look through the remainder of the content. I am going to post another video later today that basically shows what you could focus on and what is particularly difficult. This is optional! Do this if you want to have a more complete picture for your future chemistry studies!

Please check in: <https://forms.office.com/Pages/ResponsePage.aspx?id=GAmpRLReCU2WCd35yhGvQsuodiaVPQJHoMguHaAhWSBUN1hOWk0yVEQ0QzZRUFNKWTRBMkpUR0JSSyQIQCN0PWcu>
