Good Morning All:

Hope this email find you all.

The goal today is to make sure that the lines of communication are open. I will know that this is the case when you complete today's work via email. What I would like you to do is open the link to a short exercise. When you have seen the video (you can watch it more than once if you like) please respond to the question as well as you can. The questions are below the video and are as follows:

- What surprises you most about the video?
- How does this video relate to science?
- How is the science shown in the video changing people's lives?
- How does the science in this video relate to you?

Please reply to my email, rather than start a new email chain. That way, it is much more organized from my end.

Here is the link.

Should be a minimum of four complete sentences. If you have any trouble, please let me know.

Take Care and Stay Safe
