Hello All:

Hope you are well!

Today will be easier. That stuff from the last few days? You will not be evaluated on it. It was just a learning experience. Today, on the other hand does count!

Goal #1 - Complete this check in NOW and then return to the email.

Goal #2 - Go to the website www.schlenkerchem.org and then go to the optics unit. If you hit the refresh button you will see two boxes in red. The first box on the left has two notes that contain your answers (sources of light and electromagnetic radiation). The second box on the right has a mix and match quiz. What you need to do is complete this quiz. I would suggest making a column of answers on a scrap piece of paper. You can check back and forth to make sure that you are getting the answers correct. Take as long as you like.

Goal #3 - Submit your answers from Goal #2. Take your list and input it into the quiz form. I have provided the same quiz twice. The form in the first link should be done only once. Try and get it the first time. The form in the second link can be repeated as many times as you like. I will record only your best mark and it does not matter if it is on the first form or the second form.

If you did well on the first try, you do not need to use the "REPEATER"

Thats if for today. Have a good day!
