

# SNC 2P - 2020-04-30 (Thursday)

**From:** Fred Schlenker <fred\_schlenker@bwdsb.on.ca>

**Date:** Thu, 30 Apr 2020 15:18:15 +0000 (2020-04-30 11:18:15 AM)

Good Afternoon.

Please check in: <https://forms.office.com/Pages/ResponsePage.aspx?id=GAmPRLReCU2WCd35yhGvQuASPjs6aYVfK-EAh60FvohUOEUXTTVVOFIIQUIzUUFVVIlaRVdTOFkxWiQIQCN0PWcu>

The goal today is to do the first part of the section found at: [https://lah.elearningontario.ca/CMS/public/exported\\_courses/SNC2P/exported/SNC2PU01/SNC2PU01/SNC2PU01A05/\\_content.html](https://lah.elearningontario.ca/CMS/public/exported_courses/SNC2P/exported/SNC2PU01/SNC2PU01/SNC2PU01A05/_content.html)

Watch the video and answer these questions and send your answers back to me. You may need to pause and rewind. If the video gets stuck at the ads for other videos in the middle of the video, just click a little past the ads:

1. Is it true that all cells in your body are replaced every 7 years?
2. How long does it take for the cells in the walls of your stomach to be replaced?
3. How long does it take for your skin cells to be replaced?
4. How long do red blood cells last?
5. What makes the puss that forms in a cut while it is healing.
6. Does your heart replace all of its cells?
7. Do you grow new brain cells?
8. Where did the carbon-14 come from?
9. How can carbon-14 be used to determine how long cells live?
10. Below the video, what point are the different backpacks trying to make?

When you get to the end of the backpacks, that is far enough for today!

Mr. Schlenker
