

SNC 2P - 2020-05-11 (Monday)

From: Fred Schlenker <fred_schlenker@bwdsb.on.ca>

Date: Mon, 11 May 2020 14:33:38 +0000 (2020-05-11 10:33:38 AM)

Good Morning/Afternoon All:

Hope you had a good weekend and made the best of the winter weather. I have heard it will warm up by Friday.

Please Check In: <https://forms.office.com/Pages/ResponsePage.aspx?id=GAmPRLReCU2WCd35yhGvQuASPjs6aYVfk-EAh60FvohUMzMzVDdWQVhGOUZaRzg3R1BEWDc4SkVGUiQIQCN0PWcu>

Today we are back to the ministry website. Please open and continue the instructions in this email. Two different windows on your computer should do it!

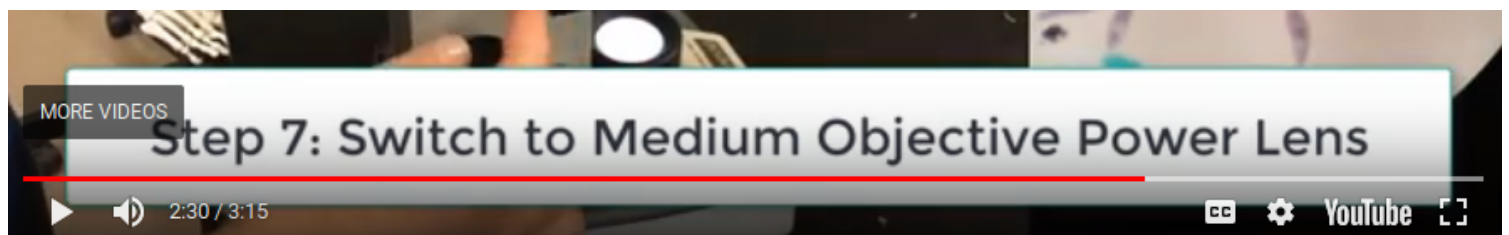

https://lah.elearningontario.ca/CMS/public/exported_courses/SNC2P/exported/SNC2PU01/SNC2PU01/SNC2PU01A05/_content.html

Find the section that starts with this heading:

Cells Under The Compound Microscope

Watch the video and get the pause button ready to work (i.e. pause the video). I would like you to write out and mail back to me a summary of how to make a microscope work. There are 9 steps in the video. Therefore you should have 9 points. (Could copy them out if you like).

The steps are broadcast at the bottom of the video and look like this:

Second thing today is to research muscle cells. I would use the images in google to identify the three distinct types of muscle cells that are found within your body. For each type of cell state:

a) where the type of cell can be found

b) what the type of cell looks like

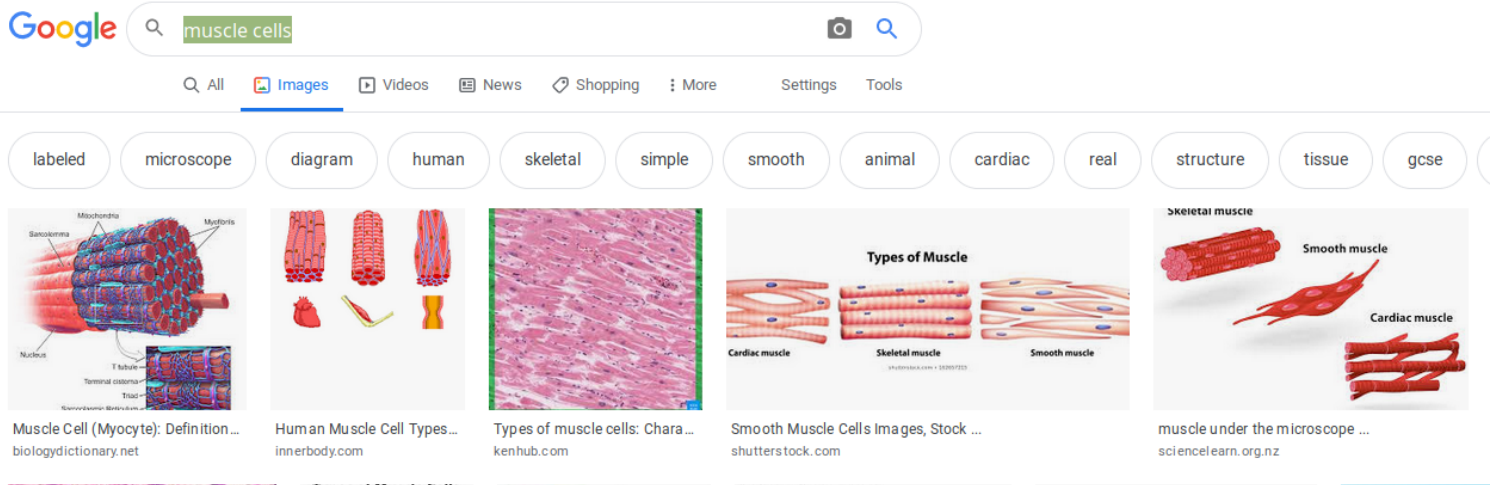

c) what the type of cell does

d) is it involuntary or voluntary

This is a bit more work today. Please do your best to complete it all.

Mr. Schlenker

P.S. This is a screenshot of my google!
